

Doblo

The new Fiat Doblo offers a superior ride due to its superior bi-link rear suspension and car based chassis. It's also easy to drive and park and is no longer than the average estate car.

All models are supplied with one rear seat, air conditioning, electric front windows and a fully trimmed and carpeted wheelchair channel for comfort and noise reduction.

Our lightweight ramp and easy to use restraint system make using the vehicle extremely quick and hassle free with the overhead tailgate able to offer temporary protection from the elements while you are accessing the vehicle.

A fully adjustable 3 point seatbelt ensures absolute safety for the wheelchair user. For manual chairs, our optional compact electric winch is available with whisper quiet operation and wireless keyring remote.

Seating

The Doblo is available with seating configurations for either 3,4 or 5 people.

With its smaller size it is ideally suited for couples, families with younger children and those who just prefer to use a more compact vehicle.

As standard the vehicle is supplied with driver and passenger seats plus a wheelchair position in the rear. A single additional rear seat can also be added depending on the size of the wheelchair being used.

Please give us a call for guidance as to seating options with your specific wheelchair.

Engines

1.4 16v Petrol 95bhp

Top Speed - 100mph
0-60 mph - 14.9 seconds
